

AI EVENT CONCIERGE DEMO

AIVENT for TVCO Event Experiences

A premium bilingual event kiosk concept that helps delegates with agenda, registration, venue directions, transport, Wi-Fi, meals, certificates, CPD, and compliant escalation.

What The Demo Shows

- Corporate kiosk UI with holographic AI concierge visual.
- Voice-driven interaction in English and Arabic.
- Mock event knowledge loaded from an editable JSON file.
- D-ID presenter-stream integration path for live avatar animation.
- Compliance-safe refusals for medical, safety, dosage, and patient-specific questions.

Current Demo Scope

Mode	Mock AI recommended for client demo
Languages	English and Arabic
Avatar	D-ID stream path plus static fallback
Knowledge	Editable active event JSON
Compliance	Refusal and redirection examples included

Example Delegate Questions

- Where do I collect my badge?
- What time is the opening keynote?
- What is the Wi-Fi password?
- How many CPD credits are available?
- أين مكتب المعلومات الطبية؟
- ما هي الآثار الجانبية لـ Cardivex؟

Recommended Pilot

Run a controlled pilot for one TVCO conference area or registration zone, using approved event content and a kiosk/tablet setup.

- Finalize approved event knowledge.
- Replace browser speech recognition with server-side speech-to-text.
- Run bilingual QA with event staff.
- Measure usage, accuracy, escalation, and delegate satisfaction.

Compliance posture: the concierge answers event logistics and approved high-level congress information only. It redirects medical, dosing, safety, and patient-specific questions to the official medical representative or medical information desk.
